

Transdisciplinary (TD) Research on Energetics and Cancer

JUNE 18- 23, 2017

TRAINING WORKSHOP FOR EARLY CAREER INVESTIGATORS

We are **building a diverse community of TD researchers** and invite you to apply to our new mentored program: the Transdisciplinary Research on Energetics and Cancer (TREC) Training Workshop. Funded by the National Cancer Institute and led by Yale University's Dr. Melinda Irwin with a Senior Advisory Board and expert faculty from across the country, this program will build capacity in TD **energetics and cancer research** from a basic, clinical, and population science perspective, and is designed for early career investigators (i.e., junior faculty and postdocs). This **5-day, in residence Workshop** will be offered annually and will place emphasis on developing and applying TD competencies focused on energetics (i.e., obesity, diet and exercise) and cancer. **Expert faculty** span an array of professional disciplines, from basic scientists to clinicians to behavioral and population scientists. Formal didactic learning will be integrated with one-on-one dialog and small group discussions to enable fellows to learn from each other, from faculty, and to develop a TD network. The inaugural course will be held June 18-23, 2017 at Water's Edge Resort, Westbrook, CT. **Costs will be covered (excluding ground transportation).**

Applications are due ~~Jan 2, 2017~~ **Jan 15, 2017 (extended)**

Notification of Intent to Apply – due Jan 2 to dlowry@fredhutch.org
